Front-End Developer with Full Stack Experience

Front-End Developer with a strong background in JavaScript, React, Vue.js, and CSS. Proven ability to deliver **user-centric** web solutions that enhance user experience and engagement. Experienced in building **responsive, mobile-first designs**, and **component-based architectures** using modern JavaScript frameworks. Skilled at translating complex problems into **intuitive and impactful user interfaces**. Committed to continuous learning and staying on top of **emerging front-end technologies**.

Front End / Back End Development / Quality Assurance | Continuous Learning | Critical Thinking | Creativity | etc.

Technical Proficiency

Front-End / Back-End: React, Vue.js, Node.js, Express.js, HTML5, CSS3, Sass, JavaScript, TypeScript, GraphQL, Apollo Client
Tools / Testing: Cypress, Postman, Git, GitHub, Jira, Azure DevOps
Design: Figma, Adobe Illustrator, Adobe Photoshop
Databases & Infrastructure: MongoDB, PostgreSQL, Azure, Django, Python

Professional Experience

Humana, Inc., Louisville, KY
Automation Engineer   06/2023 - 03/2024
DIGITAL ONBOARDING | Cypress, qTest
- Automated key user journeys with Cypress, enhancing data collection, accuracy, and user experience.
- Improved test coverage and CI/CD integration by refining Cypress repo and ADO workflows.

Humana, Inc., Louisville, KY
Full Stack Engineer 2   01/2023 - 06/2023
DIGITAL BENEFITS | Vue.js, Node.js, Express, GraphQL, Apollo Server, Apollo Client
- **Optimized front-end user experience** using Vue.js components, improving user satisfaction and benefit access.
- **Collaborated** with design team to build **responsive, mobile-first Vue.js** components, ensuring **seamless cross-device UX**.

Humana, Inc., Louisville, KY
Junior Full Stack Engineer   01/2022 - 01/2023
DEBUT | Node.js, React, Express, SCSS, Jest, MongoDB
- **Developed a plan comparison modal** using React, which boosted application usage by 30%.
- Built **front-end tests** using Jest and React Testing Library, ensuring an 80% coverage rate across repositories.

BEBOP | Node.js, Express, Marked.js
- Decoupled DEBUT backend for stand alone BEBOP API service.
- Integrated changes currently being made in DEBUT till fully decoupled.
- Documented BEBOP API for external consumption using Marked.js.

General Assembly, New York, NY
Software Engineering Immersive Fellow   04/2021 - 10/2021
- Built stable and maintainable codebases using React.
- Implemented a mobile-first approach to websites.
- Worked closely with User Experience designers and team members to meet goals and desired functionality.
- Created modular, responsive templates using modern CSS techniques and JavaScript libraries.

Additional Experience

United States Air Force, Various Places

Jet Engine Mechanic
- Maintained jet engines, developed technical, leadership, and teamwork skills under high-pressure environments.

Education

- **Software Engineering Immersive**, General Assembly, New York, NY – **420 hours of intensive full-stack web development with a focus on front-end technologies (React, JavaScript, CSS, HTML)**

- Associate of Science (AS), Aerospace Aviation Technology, Community College of the Air Force, Maxwell AFB, AL

- Certificate in Graphic Communication, West Kentucky Community and Technical College, Paducah, KY
